Hey Christina -

Hope you are having a good time in Sweden. Yes, no problem, I will send you the PPT for our July 14th meeting to you. The PDF of our PPT may not go out until late on the 13th or on the 14th as we are often working on edits to our PPT based on a prep EPA team meeting we have the day before a Stakeholder meeting.

I also owe you an email response back regarding EPA participation in the CAG and your renewed request on TASC. I was on vacation my late June - early July and need to catch up on my emails with you. Hope to get you a response on those issues soon.

Craig

Hi Craig and Gregg,  
 I am in Sweden and will not be able to attend but would appreciate it if you could send me the ppt's?  
 Thanks very much  
 Christina walsh

Hello Everyone -

This is another reminder that we will be holding our SSFL Technical Stakeholders meeting on July 14, 10am -1pm at the Radisson Hotel in Chatsworth. Below is the agenda for our meeting.

As mentioned at previous meetings, in order to allow for greater community involvement, additional community members will be participating upon request. We will continue to start our meetings discussing ground rules for the meeting and ask that if you have very detailed questions that can not be fully addressed at the meeting, that you come talk directly to one of us at EPA or send us an email after the meeting.

Due to schedule conflicts and vacations, Mary and Nicole will not be able to join us on the 14th. However, Gregg, myself and the crew from Hydrogeologic (HGL) will there to present a full and complete presentation on all of EPA's work at SSFL. EPA's Andrew Taylor will also be joining us to provide an update on EPA interviews of SSFL former workers.

I look forward to a productive meeting.

Sincerely,  
Craig

p.s. By COB monday, I will be sending information for those wish to participate via conference or web-ex.

### **Agenda**

1. Introductions and Ground Rules (5 minutes)
2. Project Schedule Update (15 minutes)
  - Major Milestones Tracking Table
  - Critical Path Items
  - Corrective Actions
3. Background Study Laboratory (30 minutes)
  - Corrective action plan for identified lab issues
  - Initial results on Sr-90
4. Gamma Scanning Update (30 minutes)
5. Water Testing (30 minutes)
  - Summary of the Water Testing Field Sampling Plan
  - Lab selection
  - Status of DTSC's response to EPA's tritium disposal proposal
6. HSA Tech Memos for 5C and 5B (30 minutes)
  - Corrective action plan for HSA process

- Content expectations for HSA Tech Memos
  - Update on former employee interviews
7. Soil Testing Plan and GIS-based Mapping (30 minutes)
  8. Setting the date for EPA's next Technical Stakeholders Meeting (5 minutes)
  9. Adjourn
